GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orehard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

"When my friends and neighbors see me 'going' out to the movies with my daughters and enjoying life once more. H. J. MEYER, M. D. they tell me they can bardly believe I am the same bed ridden woman the have known me to be for the last four SATURDAY: MARCH-16. 1918 . . years; "said Mrs. G. A. Addrews, '6f 6007 Missouri Street, El Paso, Texas, the other day.

> "I was laid up for more than four years with rheumatism so I was unable to leave my house, and fully half the time I lay flat on my back in bed unable to move. My body and limbs were so swollen they seemed to be twice their natural size and my face was puffed up so I could hardly see. My back hurt all the time and I could lie on neither side with comfort. My kidneys gave me no end of trouble, my head ached all the time like it would ourst and my feet and finger tips tingled like they were asleep. My nerves were all on edge so I would go all to pieces at any little neis: and what little sleep I got didn't do me any good. My appetite failed and I got so I had to force myself to eat enough to keep me alive.

"I had spent all of a thousand dollars | Wagon and Cartrying to get well, but nothing did me riage Repairing any good and I was about to give up hope when I heard of Tanlac. I was actually amazed to find I was getting better from the first few doses. I have taken three bottles so far and the swelling has entirely disappeared. My nerves are all right and I can sleep all night with comfort. I am so hungry I can hardly eat enough to satisfy my appetite and I have so much life and energy I want to keep on the go all the time. I help with the housework and the sewing and I signed my name today for the first time in four years. I could not have believed it possible for any medicine to do so much good in so short a time as Tanlac has done

time when it is most needed. The situation calls for heroic efforts in two directions. We must conserve as much as we can of our present meagre supplies. And we must increase production as fast and as extensively as we can. Mr. Hoover says we must increase our normal food exports to our allies twenty times to meet their food necessities; and he adds that to discontinue exports to them means to move the German firing line from

France to our own Atlantic seaboard. This is a Food and Feed Production Campaign upon which we are engaged, but if any one thinks it is a campaign to decrease the production of cotton let them disabuse their minds of the error at once. Cotton has come to be a most valuable food and feed crop. But even if it were not, the need of cotton to clothe and equip armies and to furnish ammunition would justify us in urging no slackening in our efforts to produce all of that crop possibleafter the foods and feeds for the live stock and the home have been made sure on each and every farm. Three successive short cotton orops, coupled with the heavy demands of war, have caused the consumption of the world's surplus stock of cotton, and is bringing on almost prohibitive prices for

In 1916 we produced domestically 288,490,000 pounds of raw wool. We imported; one and a third times this amount for domestic consumption in time of peace. Our foreign supplies are now being diverted to Europe and we are largely dependent upon our own resources for our supply of wool. It takes a hundred pounds of raw wool to clothe and equip a soldier for one year's service. An army of three million men would call for 300,000,000 lbs. of wool or nearly 12,000,000 lbs. more than we are producing. Consideration for the warmth and health of our boys, as well as the need for augmenting our country's meet supply with the production of mutton, should urge us most forcefully to increase our flocks and herds as rapidly as possible.

This, then, is our economic situation as a result of the war. "The world's food supply is the shortest it has been

in modern times." "The world is the hungriest that it has ever been in its history." And the farmer has the most stupendous job on his hands to feed the world he has ever had since the birth of his calling. But his patriotism. Since the day when the embattled farmers stood on the village green at Concord and Lexington and fired the shot heard round the world, the American farmer has never failed his country in the time of need. He will not fail her now in the present

He will answer her call with the needed production.

Let us view this crisis from three

First, the bug-bear of over-production has been dispersed. The farmers' cry for a market has been answered. The world is crying out to us produce, produce, pronaked! And it stands ready to take all that we can produce at good and remunerative prices. A writer in a recent magazine says dairy and garden produce increased 84 per cent and other The world's stock of live cattle, ac- | food products 105 per cent during the in the price of farm and dairy produce like of which he never enjoyed before. Should stocks of food and feed upon which we the man who fails or refuses to be forwarned and make his farm self-sustainmay find himself surrounded by high priced cotton and unable to purchase a meal for his famishing brood. Enterprise Home and School League.

The Enterprise Home and School League held its regular meeting or March 10, 1918 and was largely attend ed. The program was very much en joyed by all present, especially the debate which created much interest and was won by the negative side. Hurrah for the broom! The meeting adjourned only to become engaged in playing Ball and other games, even the grown folks forgot that they were old and played like children.

A program was made out for April 14, 1918, as follows:
